

## BIPxMUN

Are you interested in international experience and exchange? Wanting to learn more about different cultures and to work with other EU students? **Join our Blended Intensive Program (BIP)** and experience the UN firsthand!

A BIP is a learning unit developed by cooperating Erasmus+ countries. It **combines virtual and physical mobility for 5-30 days**. We will prepare you for the upcoming conference (physical mobility part), which will **take place in June 2026 in Paderborn**, through virtual workshops and classes. Students from all levels (BA, MA, PhD) are welcome to participate.

Join now, **earn 3-6 ECTS** and improve your English speaking, debating and writing skills while meeting likeminded students and new friends.

Registration is possible via PAUL.
